Letter Writing:

Another important thing you can do for our service members is to write a letter of encouragement and support. Please address it "Dear Service Member". Things to include in your letter might be: your family, profession, hobbies, your prior service or connection with the military and most importantly, spiritual encouragement — perhaps what God has been teaching you. The recipients of our care packages are far away from home doing a job that they believe matters and hope that you believe what they are doing matters too.

SUPPORT
OUR TROOPS
"Liberty and freedom are perhaps the most precious gifts available to us. There is no greater example of sacrifice to protect our God-given freedoms than the American soldier. We must give them all they need, to do all they can, to keep freedom and guard liberty. Join us in thankful support of our military." - Pastor Jack
