

Matthew 24:36

“But of that day and hour no one knows, not even the angels of heaven, but My Father only.

Matthew 24:4-8

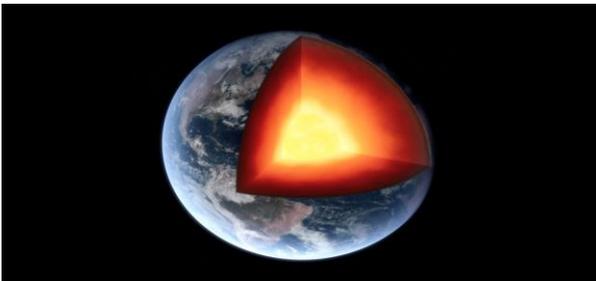

And Jesus answered and said to them: “Take heed that no one deceives you. For many will come in My name, saying, ‘I am the Christ,’ and will deceive many. And you will hear of wars and rumors of wars. See that you are not troubled; for all these things must come to pass, but the end is not yet. For nation will rise against nation, and kingdom against kingdom. And there will be famines, pestilences, and earthquakes in various places. All these are the beginning of sorrows.

Matthew 24:37-39

But as the days of Noah were, so also will the coming of the Son of Man be. For as in the days before the flood, they were eating and drinking, marrying and giving in marriage, until the day that Noah entered the ark, and did not know until the flood came and took them all away, so also will the coming of the Son of Man be.

### Earth’s inner core may be reversing its rotation

Scientists have proposed that Earth’s solid inner core (yellow in this diagram) rotates faster than the rest of Earth. A new study suggests the core’s rotation has recently paused, and is reversing direction.

JANUARY 23, 2023 AT 11:00 AM

Our planet may have had a recent change of heart.

Earth’s inner core may have temporarily stopped rotating relative to the mantle and surface, researchers report in the January 23 *Nature Geoscience*. Now, the direction of the inner core’s rotation may be reversing — part of what could be a roughly 70-year-long cycle that may influence the length of Earth’s days and its magnetic field — though some researchers are skeptical.

## **NewScientist: The north pole is moving and if it flips, life on Earth is in trouble**

The magnetic north pole is racing towards Siberia - but why? It's a mystery with huge implications, and to solve it, we're building an explosive model of the planet's core

It isn't just that your compass can be thrown off by local quirks in the magnetic field. The north pole itself isn't what it used to be. In 1900, the pole was in Canada. A century later, it was near Greenland. In the past 18 years, it has raced eastwards at about 40 kilometers per year, and is currently heading for Siberia.

The weird behavior of Earth's magnetic field doesn't end there. It also occasionally reverses its polarity: there were times in our planet's history when a compass needle pointed to what we call south. Even now, there are spots under the surface where a compass would point the wrong way. What is going on? The mystery has deep implications for technology and the future of our planet.

### **Re Carbon Offsets;**

**Carbon offsets occur when a polluting company buys a carbon credit to make up for the greenhouse gas it has emitted. The money should be used to fund action somewhere in the world that remove the same amount of carbon out of the air, or to prevent carbon emissions.**

**Detractors say that offsetting is 'greenwash', allowing companies to avoid cutting their emissions while still being able to claim they are, or will be, carbon neutral. Proponents say offsetting, if done properly, can help channel funds to conservation and sustainable development projects that will reduce emissions, giving companies time to work towards zero emissions.**

Report: Hate crimes rose 44% last year in study of major cities

Many of the most populous cities across the country experienced an uptick in hate crimes last year, a trend that has continued since the start of the pandemic, according to a preliminary report from the Center for the Study of Hate & Extremism at California State University in San Bernardino.

### What You Need To Know

Many of the most populous cities across the country experienced an uptick in hate crimes last year, according to research from the Center for the Study of Hate & Extremism

The study examined hate crimes across 16 of the biggest cities in the country, including New York, Los Angeles, Chicago, Houston, Dallas, Denver and Louisville

Los Angeles and New York reported the highest and second highest amounts, respectively, of “any U.S. city in the 21st century”

Reports of hate crimes against Asian Americans jumped 342% from the year before, continuing a pattern from previous years

The FBI defines a hate crime as a “criminal offense against a person or property motivated in whole or in part by an offender’s bias against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.”

The study examined hate crimes across 16 of the biggest cities in the country, including New York, Los Angeles, Chicago, Houston, Dallas, Denver and Louisville.

Per the draft report, which has not yet been released to the public, those 16 cities experienced a cumulative 44% jump in reported hate crimes, up from 1,492 in 2020 to 2,150 in 2021.

## **Man Is Allegedly Told to Leave Mall of America for Wearing 'Jesus Is the Only Way' Shirt**

A video has gone viral showing security guards at the Mall of America telling a man wearing a shirt that says, “Jesus is the only way” to remove his t-shirt or leave the mall.

According to ChurchLeaders.com, in the video, a security guard at the Minnesota mall tells the man that people are offended by his shirt and he must remove it or leave.

“Jesus is associated with religion, and it’s offending people,” the male security guard says at the beginning of one of the videos.

“It’s not religion. It’s about eternal life,” the man wearing the shirt says.

“Ok, but it’s the same thing,” says the guard. “People have been offended.”

The man says he didn’t “say anything,” but the guard again tells him that removing the shirt or leaving “are your only options right now.”

“Why don’t you just take it off and shop, man?” the security guard says in another posted video of the incident. “That’s all we want.”

“I’m just wearing my t-shirt,” the man later tells a police officer. “I’m not preaching ... I came here to shop.”

## **THE MAJORITY OF THE WORLD ALREADY SUPPORTS MURDER AS A MEANS TO PROTECT THEIR LIFESTYLE**

**2 Thessalonians 2:9-12**

The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders, and with all unrighteous deception among those who perish, because they did not receive the love of the truth, that they might be saved. And for this reason God will send them strong delusion, that they should believe the lie, that they all may be condemned who did not believe the truth but had pleasure in unrighteousness.

**Revelation 6:5-6**

When He opened the third seal, I heard the third living creature say, “Come and see.” So I looked, and behold, a black horse, and he who sat on it had a pair of scales in his hand. And I heard a voice in the midst of the four living creatures saying, “A quart of wheat for a denarius, and three quarts of barley for a denarius; and do not harm the oil and the wine.”

## Food Price Outlook, 2023

This page summarizes the February 2023 forecasts, which incorporate the January 2023 Consumer Price Index and Producer Price Index numbers.

### Consumer Price Index for Food (not seasonally adjusted)

The all-items Consumer Price Index (CPI), a measure of economy-wide inflation, rose by 0.8 percent from December 2022 to January 2023 and was up 6.4 percent from January 2022. The CPI for all food increased 0.7 percent from December 2022 to January 2023, and food prices were 10.1 percent higher than in January 2022.

The level of food price inflation varies depending on whether the food was purchased for consumption at home or away from home:

- The food-at-home (grocery store or supermarket food purchases) CPI increased 0.8 percent from December 2022 to January 2023 and was 11.3 percent higher than January 2022; and
- The food-away-from-home (restaurant purchases) CPI increased 0.6 percent in January 2023 and was 8.2 percent higher than January 2022.

Food prices are expected to grow more slowly in 2023 than in 2022 but still at above historical average rates. In 2023, all food prices are predicted to increase 7.9 percent, with a prediction interval of 5.5 to 10.3 percent. Food-at-home prices are predicted to increase 8.6 percent, with a prediction interval of 5.6 to 11.8 percent. Food-away-from-home prices are predicted to increase 8.3 percent, with a prediction interval of 7.1 to 9.6 percent.

### The horrific bird flu that has wiped out 50 million chickens and turkeys, explained

The virus, known as the **Eurasian H5N1 avian influenza**, began tearing through Europe, Asia, and Africa in late 2021 and is still raging, with Europe experiencing its worst bird flu outbreak **on record**. It was first detected in the US in January and has since spread to at least 47 states, resulting in the death of more than 50 million chickens and turkeys triggering a spike in **egg prices**.

While the virus has a **near 100 percent mortality rate** among infected poultry — and can spread rapidly among birds, especially in packed industrial farming conditions — it's currently believed to pose little threat to human beings. It only rarely spills over to people, and only to those who come into close contact with infected birds. Even when there are human infections, "the viruses are unable to efficiently transmit between humans," notes Michelle Wille, a virus ecologist at the University of Sydney.
